

SALLI SMALL SWINGFIT

Narrow SwingFit

The Salli Small SwingFit provides its user with the same movement-following seat benefits as the SwingFit and additionally allows for a significantly narrower sitting position. The seat follows the body's movements and various forward and sideways bends work in the manner of pilates movements to strengthen the lower back, pelvic area and abdominal muscles. A movement-following seat helps to maintain the natural curvature of the back even in work tasks that involve leaning forward. A special feature of the two-part seat is the adjustable seat width, so the chair is also suitable for someone with a narrow waist.

SEAT

- Two-part active seat with width adjustment
- 3 mm steel sheet seat plate
- Leather, artificial leather, ESD artificial leather, or wool

GAS SPRINGS	User height (cm)	Chair height Regular gas spring (mm, min-max)	Chair height Gas spring with Top&Bottom (mm, min-max)
Short	<150	420-535	430-550
Medium	150-170	510-695	525-720
Long	>165	585-825	585-835

TECHNICAL FEATURES

- Total weight 10.9 kg
- Height control by hand as a standard; Top & Bottom (foot height control) available
- Maximum load 120 kg
- Warranty 10 years

Mini gas spring is available for special circumstances; use depends on the working height, not on the height of the user.

Note! If you are using industrial or inline castors, the chair is 35 mm higher than the measurements shown in the table.
